PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Engineer with 9+ years building production-grade SaaS across the stack — React/TypeScript/Next.js frontend and Node.js/Express backend. Turns complex workflows into intuitive, high-performance UIs with a strong eye for UX, reusable components, API integration, and AI-assisted development. 6+ years remote in a Sweden-based B2B SaaS team, owning code quality via reviews, mentoring, and standards.

WORK EXPERIENCE

Senior Software Engineer

Jan 2024 – Present

Goava Sales Intelligence AB — Stockholm, Sweden (Remote)

- Designed and implemented a CRM companion app that increased user adoption by 10%.
- Reduced core application bundle size by 20%, improving frontend build and load performance.
- Collaborated with backend and design teams to improve UI/UX, responsiveness, and accessibility.
- Use AI-assisted development (e.g., Claude) daily to accelerate coding, reviews, and debugging with quality guardrails.
- Led a React Native (Expo) upgrade from SDK 48 to 57, resolving breaking changes and native build failures.
- Mentored developers and reinforced engineering standards through code reviews and pair programming.

Software Engineer

Nov 2020 – Dec 2023

Goava Sales Intelligence AB — Stockholm, Sweden (Remote)

- Built reusable, pixel-perfect UI components from Figma using React, TypeScript & styled-components.
- Prototyped and shipped a CRM integration that increased user engagement by 10–15%.

Software Engineer

Mar 2017 – Oct 2020

Brain Station 23 Ltd — Dhaka, Bangladesh

- Grew from React Native mobile developer to full-stack engineer specializing in Node.js + AngularJS.
- Led large-scale EdTech, FinTech & Real Estate builds, including an open-source wallet and B2B products.
- Architected REST APIs, optimized application performance, and drove component-driven development patterns.
- Ran technical grooming sessions and peer programming to raise overall team code quality.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3

Styling: Tailwind CSS, styled-components, SCSS, Responsive Design

Testing: Cypress, Jest, React Testing Library

Backend & Data: Node.js, Express, MySQL

Mobile & Tools: React Native (Expo), Git, Webpack

PROJECTS

- Discover** (*React, Redux*) — B2B sales intelligence on big data for personalized prospect recommendations. discover.goava.com
- Enrich** (*React, TypeScript*) — CRM companion web app for personalized B2B recommendations. enrich.goava.com
- Clarify** (*AngularJS, Express, MSSQL*) — Nordic dictionary across web, Chrome extension & Google Docs add-in. app.clarify.no
- Rehive Wallet** (*React Native*) — Open-source digital wallet platform for rapid FinTech development. rehive.com
- Highmark** (*React*) — Real-estate app for contract management and market-trend tracking. highmarkhomes.ca

EDUCATION

B.Sc. in Computer Science & Engineering

Jan 2012 – Oct 2016

Rajshahi University of Engineering & Technology (RUET)

EXTRACURRICULAR

- Champion, Chess — RUET Annual Sports, 2016.
- Volunteer, NCPC & NHCP programming contests at RUET, 2015.
